

TAKE BACK CONTROL

Custom Control Panel ASSEMBLY

Custom Control Panels are assembled with various configurations to execute unique functions for every project. MIS Controls has vast expertise to meet and exceed customer expectations.

With a customer-provided design, MIS assembles the finished project at our facility.

Capabilities

- Single or Multi-Door
- Any Unique Specifications
- Cost-Effective, Customized Solutions
- UL 508A Certification Availability
- NEC Standard Wire Control

Kiosk Control System ASSEMBLY

MIS builds Kiosk Control Systems that meet all specification requirements, customer expectations, and industry standards. These systems monitor and control complex machines.

They are used on the manufacturing floor, in robot cells, or in other automation processes.

Capabilities

- Highest-Quality Product
- Any Unique Specifications
- Cost-Effective, Customized Solutions
- Cost-Effective Solution
- UL 508A Certification Availability
- NEC Standard Wire Control

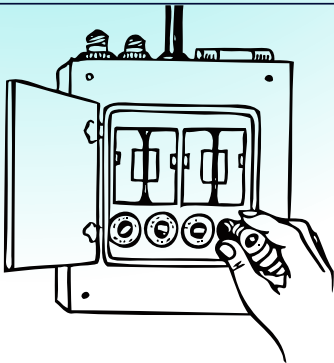

Electrical Enclosure WIRING

Wires complete the connections between panel components using pathways separating low and high voltage wires to meet all communication and Underwriter Laboratory (UL) Standards.

MIS utilizes a 5-Step Manufacturing Process, including expert electrical wiring for control panels.

Capabilities

- Disconnect switches, relays, circuit breakers, and fuses
- Electrical Wiring Center
- Partnership with Wire Processing Center
- High NEMA Rating
- NEC Standard Wire Control

UL 508A Certified | CSA-Approved
